FACULTY OF
MANAGEMENT SCIENCES (FMS)

Faculty of Management Sciences (FMS)

Our Management Sciences programs provide students with knowledge of business management principles, to familiarize them with the basic functions of management at all levels, to introduce students to contemporary issues in management, and to familiarize them with the processes and systems available for the successful operation of any business. Graduates have a wide variety of opportunities in administration, finance, marketing and human resource management. The courses cover a broad spectrum of managerial and organizational functions that will benefit the student in any career in business.

Today's changing socio-business environment and increasing globalization have created an international community demanding global management. In this context, the aim of FMS is to provide students with knowledge, skills and attitudes that will help them begin their career anywhere in the world and to ensure that they will have the education to meet their goals and become leaders in their own field. To achieve this, the faculty provides students with a broad and thorough knowledge of the main features of organization management and comprehensive analysis of management theory and practices, and promotes students understanding with applied innovative learning and teaching practices. Students get familiar with both the theoretical background and the practical techniques of Business Administration.

VISION

"To be the institute of "First Choice" & to bring to the world more innovative, productive and ground breaking minds who can lead and best manage the organizations"
